

Tuckahoe Garden Club Centennial Tree Campaign

Thank you for celebrating one hundred years of member dedication to our mission of education, conservation and garden restoration. We celebrate the hundreds of women who came before us to provide resources, support and education to the citizens of Richmond in the areas of horticulture, floral arrangement and conservation. In 1930, the Tuckahoe Garden Club embarked on its first gift which sponsored the first landscape engineer of the Virginia Highway Commission, Mr. Harold J. Neale. Today we recognize all the many projects completed over the last 100 years by our members including:

- Plantings on Grove Avenue, River Road, Patterson Avenue
- Restoration of the gardens at the John Marshall House
- Works at Lewis Ginter Botanical Gardens and Maymont
- Works at the Science Museum of Virginia
- Bandy Field
- Capital Trees and the Low Line
